昱岳国际贸易有限公司

MC-01 — MC-04 · Concept collection · October 2026
Illustrative renders. Final specifications subject to approved samples.

MC-01 / Compact storage. Clearly separated.

Health Monitoring Kit Bag

健康监测套装包

OUTER / 参考外尺寸 · mm
280 × 210 × 125*

TARGET INTERIOR / 目标净空 · mm
250 × 180 × 100*

Organized interior

One long and one short padded divider separate the main device and accessories.

长短隔板分区，主机与附件分别收纳。

Easy everyday access

Twin zipper pulls, a front padded handle and a zipped mesh lid pocket.

双拉头、前侧加垫提手及上盖拉链网袋。

For compact monitoring kits; device fit to be confirmed.

* Dimensions follow the written sheet. Drawing orientation differs; confirm W × D × H during sampling. Concept render; dimensions and performance require sample verification.

MC-02 / Carry the kit. Keep it organized.

Medical Visit Tool Bag

医护出诊工具包

OUTER / 参考外尺寸 · mm
380 × 230 × 290

TARGET INTERIOR / 目标净空 · mm
350 × 200 × 260

Three-zone main compartment

Two removable long dividers create a wide center section and two side sections.

两片长隔板，形成中间大仓与两侧窄仓。

Multiple ways to carry

Twin handles and a detachable padded shoulder strap; front organizer and side pockets.

双提手及可拆加垫肩带，配置前整理袋与侧袋。

For visiting-care kits and portable equipment accessories.

Internal layout and strap fittings are subject to sample approval.
Concept render; dimensions and performance require sample verification.

MC-03 / Lift out. Keep the layout together.

Removable Hard-Case Insert

硬箱可取内胆

OUTER / 参考外尺寸 · mm
440 × 310 × 170

TARGET INTERIOR / 目标净空 · mm
410 × 280 × 145

A sewn soft insert

Lift-out twin handles, a zipped soft lid and mesh storage inside the lid.

车缝软内胆，双提手、拉链软盖及网布整理袋。

Device and accessory zones

One long divider, one short divider and a removable base pad.

长短隔板各一件，配可拆底垫。

Custom-sized to the selected hard case and equipment.

Soft insert only. Hard case selected and priced separately. Confirm case clearance before sampling. Concept render; dimensions and performance require sample verification.

MC-04 / Tablet, probes and cables. One kit.

Tablet Ultrasound Carry Bag

平板式超声配套包

OUTER / 参考外尺寸 · mm
420 × 180 × 340

TARGET INTERIOR / 目标净空 · mm
390 × 150 × 310

Dedicated storage layout

Rear padded tablet sleeve, two removable probe holders and a cable / accessory zone.

后侧平板仓、两只可拆探头套及附件线缆区。

Wide front access

Three-side zipper opens the front flap downward; twin handles and a removable shoulder strap.

前片三边拉链向下展开，配双提手及可拆肩带。

For tablet / handheld ultrasound kits; model fit to be confirmed.

Devices shown for layout only, not included. Probe pressure and cable bend radius require fit checks. Concept render; dimensions and performance require sample verification.

COMPARE THE COLLECTION

Choose your starting point.

四款方案，按设备与使用场景选择。

MC-01 · Health Monitoring Kit Bag

健康监测套装包

Outer: 280 × 210 × 125* mm

Target interior: 250 × 180 × 100* mm

MC-02 · Medical Visit Tool Bag

医护出诊工具包

Outer: 380 × 230 × 290 mm

Target interior: 350 × 200 × 260 mm

MC-03 · Removable Hard-Case Insert

硬箱可取内胆

Outer: 440 × 310 × 170 mm

Target interior: 410 × 280 × 145 mm

MC-04 · Tablet Ultrasound Carry Bag

平板式超声配套包

Outer: 420 × 180 × 340 mm

Target interior: 390 × 150 × 310 mm

Dimensions in W × D × H, excluding handles. Interior targets are before removable dividers are installed. MC-01 dimensions marked * follow the written specification; drawing orientation requires confirmation. MC-03 dimensions depend on the selected hard case.

All four are development concepts. Device compatibility, load capacity, cleaning methods and protective performance require verification. No waterproof, sterilization or medical certification claims are made.

OEM DEVELOPMENT

Your device.
Your configuration.

依据设备尺寸和客户需求，协商样品与小批量开发。

01 Share your equipment

Send device dimensions, photos, accessory list and target quantity.

提供设备尺寸、图片、附件清单和需求数量。

02 Define the construction

Confirm the layout, materials, colors, handles and branding.

确认内部分区、面料、颜色、携带方式和品牌细节。

03 Review the sample

Check fit, access, cable routing, closures and carrying comfort.

通过实物样品核对适配、取放、线缆路径及携带体验。

04 Approve for production

Finalize the sample, quotation, packaging and delivery plan.

确认样品、报价、包装与交付安排。

Fabric & color	Interior layout	Logo & labels	Packaging

Suggested starting materials: 600D polyester, grey lining, PE foam and PP reinforcement. Final grades, coatings and construction follow the approved sample. MOQ, price and lead time quoted per project.
